

Your town – we're on our way

Heart of Australia is steadily growing the number of towns being serviced on a minimum **monthly** basis.

Our South West Queensland locations include **Charleville, Roma, Dalby, Stanthorpe, Goondiwindi and St George.**

Our Central West Queensland locations include **Emerald, Barcaldine, Longreach, Winton, Hughenden, Charters Towers and Moranbah.**

We have plans to further expand our service area locations in other states across Australia.

PROUDLY SUPPORTED BY:

Science For A Better Life

Exceptional People. Exceptional Care

The BIG TRUCK People

Bringing specialist health services to the bush

On the highway to health

Heart of Australia is a program that embodies the most innovative approach to frontline specialist medical service delivery in generations – helping people whose lives are threatened by this nation’s vast distances.

Heart of Australia brings fortnightly cardiac and respiratory services to rural and remote communities across Queensland on a 25m-long custom-designed clinic-on-wheels, driven by a Kenworth K200 prime mover.

The purpose-built, self-sufficient trailer provides two private clinic rooms, a testing room and a reception area. It is wheelchair accessible and fully-air-conditioned.

Our mobile clinic brings specialist services to 13 towns across Queensland including Charleville, Roma, Dalby, Stanthorpe, Goondiwindi, St George, Emerald, Barcaldine, Longreach, Winton, Hughenden, Charters Towers and Moranbah.

Heart of Australia is breaking the grip of distance that denies rural and remote Australians access to health services when and where they are needed most.

Services – to your doorstep

Heart of Australia **delivers locally:**

- Cardiology Consultations
- Stress Echocardiograms
- Exercise Stress Testing
- Echocardiograms
- Electrocardiograms
- Holter Monitoring
- Ambulatory Blood Pressure Monitoring
- Sleep Apnoea Testing
- Phlebotomy
- CPAP Trials
- Sleep Specialist Consultations
- Endocrinology Consultations
- General Medicine Consultations

As need is identified, primarily through Queensland’s hard-working General Practitioners, more specialist services will be included.

Appointments and enquiries*

Giving back – thank you for having us

Heart of Australia offers educational and employment opportunities to the communities we service.

This includes training doctors and allied health professionals, offering work experience and professional development scholarships, and hiring staff locally wherever possible.
